If field-based, please confirm the site (county) where you will attend classes:

Contact for Questions (please provide at least one):

Phone number: _____

Email: _____

Mailing Address: _____

Check only one of the following:

I accept the offer of admission and I will begin graduate studies during the _____ term, which is the term stated in my letter.

I request permission to change my entry term to (*indicate one of Spring, Summer1, Summer2 or Fall along with the year*) _____; I understand that this request is subject to approval by the program director and that I can delay the start of my graduate studies by **no more than one** year.

On-campus students: Some programs only admit during certain terms (e.g., Fall only), so before choosing this option please contact your advisor or program director.

Field-based (off-campus) students: Cohorts start only during specific semesters at specific locations, so before choosing this option it is essential that you contact your advisor or the Office of Extension and Distance Education (<http://www.ext-dl.appstate.edu>).

I have decided not to attend Appalachian for graduate studies at this time; I understand that by declining this offer of admission my supporting documents will be purged, and that I will have to start the application process again if I wish to be considered for admission to the Graduate School in the future. *We hope you will use the back of this form to provide feedback on why you chose not to attend. We will use the information in order to improve the quality of our graduate programs and graduate student life. Thank you for any information you choose to provide.*
